Twould Spoil This Story to Tell It in the Headlines.

To use an eighteenth century phrase, this is an "o'er true tale." Having happenled in a small Virginia town in the winter of 1902, it is a story very much of the present. Up to a short time ago Mrs. John E. Harmon of Melfa Station. Va., had no personal knowledge of the rare curative properties of Chamberlain's Cough Remedy. "Last January," she says, "my baby took a dreadful cold and at one time I feared she would have pneumonia, but one of my neighbors told me how this remedy had cured her little boy and I began giving it to my tuby at once and it soon cured her. I heartly thank the manufacturers of Chamberlain's Cough Remedy for placing so great a cure within my reach. I cannot recommend it too highly or say too much in its favor. I hope all who read this will try it and be convinced as I was." All druggists.

### MORE ORANGES ARE SILVER. SOLD THIS YEAR 21 15-16d + LEAD. New York exchange ..... \$4,60@4.65

Consumption of This Fruit Is Three Times What It Has Been in Former Years.

This is proving to be the best season for oranges that the dealers have ever had. The retail price to the consumer is cheaper by nearly one-half this year than it was last season, and the consequence is that the wholesale dealers report that they are selling three times the amount of the former consumption. Oranges this year are not only cheap but good, the zole trouble that is experienced is that a considerable quantity gets damaged in packing and transportation. Another carloid came in yesterday, as well as the day before; the average for the last three weeks is nearly two carloads for every three days. Some very nico looking cabbage was also shipped in.

There is likely to be a shortage of Utah poulity in the next few weeks. There has been a considerable drain on the supply in the country and most of the large wholesale dealers expect to have to rely on frozen Eastern products until the late spring chickens hatch out. Fresh springs are practically out for the present, although small quantities may appear from time to time. Frozen brollers will continue to be on the market at the same figure.

The supply of fish was exhausted last night, as no new consignment comes in on Tuesday. If the shipments are not held up by casualties on the Southern it was last season, and the consequence 

	on Tuesday. If the shipments are no held up by casualties on the Souther Pacific the supply will be renovated to day.

Grain and Provisions.

CHICAGO. March 22.—Buyers of wheat were out in force at the opening, but sellers were scarce. The result was a strong start, the July option being up a shade to %21/20 at 85% to 83/40. The initial firmness was due partly to higher cables, but the strength in the cash market yesterday was perhaps the chief supporting factor. For a time the market was extremely bullish and prices continued to advance, July selling up to 85/40. The close, however, was weak with July at 87/4067/40. May closed at 95/40 after ranging between 97/4 and 97/40. An active general trade was witnessed in the corn pit, but a nervous feeling was manifested. The close was easier, July opened 4/40 higher at 52 to 52/40, and closed at 51/4/401/40. May ranged between 54/4 and 55/40, closing at 550. Oats followed the course of other grains, the market being governed almost exclusively by the action of wheat and corn. After opening a shade to 4/40 higher at 38/4/638/40.
